»ABOUT US

- We,Lanye Metal Wire and Wire Mesh, was established in 2005.This is a company composed of young people. We have our own R&D team and quality inspection department. We regard "product quality" and "corporate reputation" as the life of the company.
- Our growth and success are due to ongoing research,development and technological innovations making us a market leader in the steel wire business.
- Our company mainly produces white annealed wire,black annealed bulk wire,galvanized wire,barbed wire,PVC coated wire,hexagonal wire mesh, diamond cyclone fence,welded wire mesh and steel nails etc.
- Our products meet ISO9001 and we supply the Europe market, North American market,Korean market and Japanese market all year round.
- With reliable quality and reasonable prices, we win extensive public praise and credit in the international market. Of course, perfect transportation services and after-sales service are the greatest guarantees we have always given our customers.

Black Annealed Wire Rewound Large Coils

Product name	Black Annealed Wire Rewound Large Coils
Material	low carbon steel wire
Wire Gauge	BWG20-BWG8(0.9mm-4mm)
Weight/ coil	500kg-800kg

- 1 The weight is 500-800kg
- 2 The whole coil only one thread
- 3 The unfold is from the top to the bottom
- 4 Avoid the trouble of threading

• APPLICATION

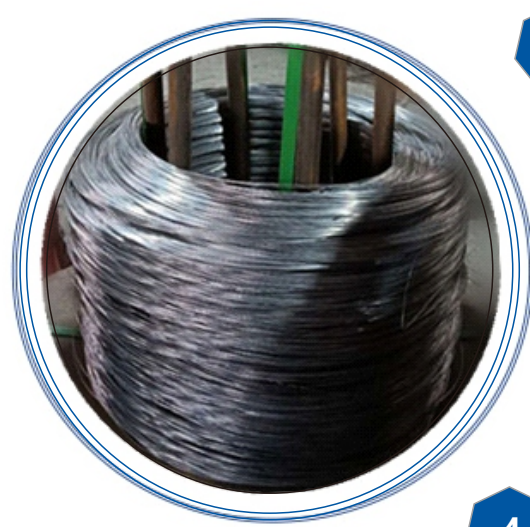

White Annealed Wire

Product name	White Annealed Wire or Vacuum Annealed Wire
Material	Q195 low carbon steel wire
Wire Gauge	BWG20-BWG8(0.9mm-4mm)
Weight/ coil	500kg-800kg
Advantages	1.Clean surface,excellent adhesion 2.low tensile strength 3.High elongation

- 1 Better flexibility
- 2 Softer
- 3 High plasticity
- 4 Widely used

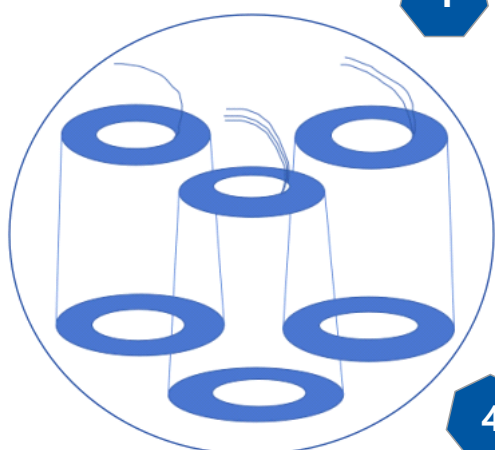

White Annealed Wire Spools

Product name	White Annealed Wire Spools
Wire Diameter	0.9mm,0.95mm,1.0mm,1.1mm,1.3mm
Size	ID: 25±3mm OD:50±3mm H: 65±5mm
Specification	2or3 wires,about 330g per coil
Application	Rebar tie wire,garden use,daily use
Advantages	Small coil, light weight, easy to carry

• FEATURES

- 1 The weight only 330g
- 2 Single strand, double strand, triple strand
- 3 Use it from the inside out
- 4 Small size, can be held with one hand

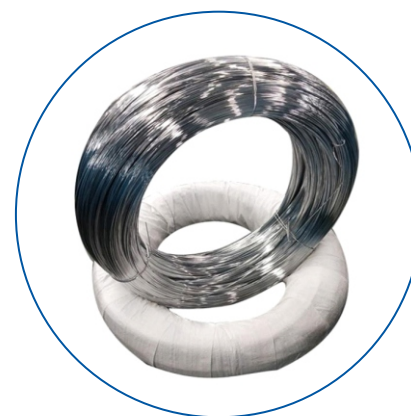

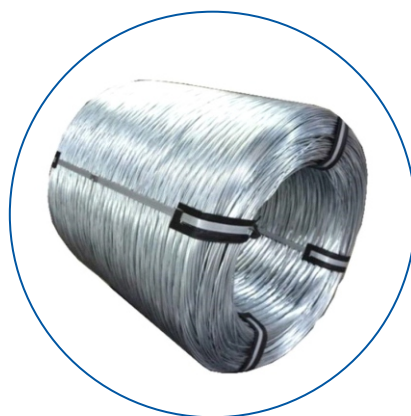

• APPLICATION

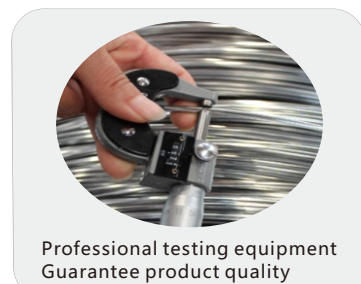

Galvanized Wire

Product name	Electric galvanized wire or hot dip galvanized wire
Material	low carbon steel wire
Wire Gauge	BWG26-BWG8(0.45mm-4mm)
Zinc Coating	8-12 g/㎡,40-60g/㎡,70-350g/㎡
Weight/ coil	1kg,2kg,5kg...25kg,50kg,800kg
Package	The plastic bag is inside, the woven bag is outside

• PROFESSIONAL TESTING TEAM

Professional testing equipment
Guarantee product quality

• PRODUCTION WORKSHOP

• WAREHOUSE

Small Coil Wire

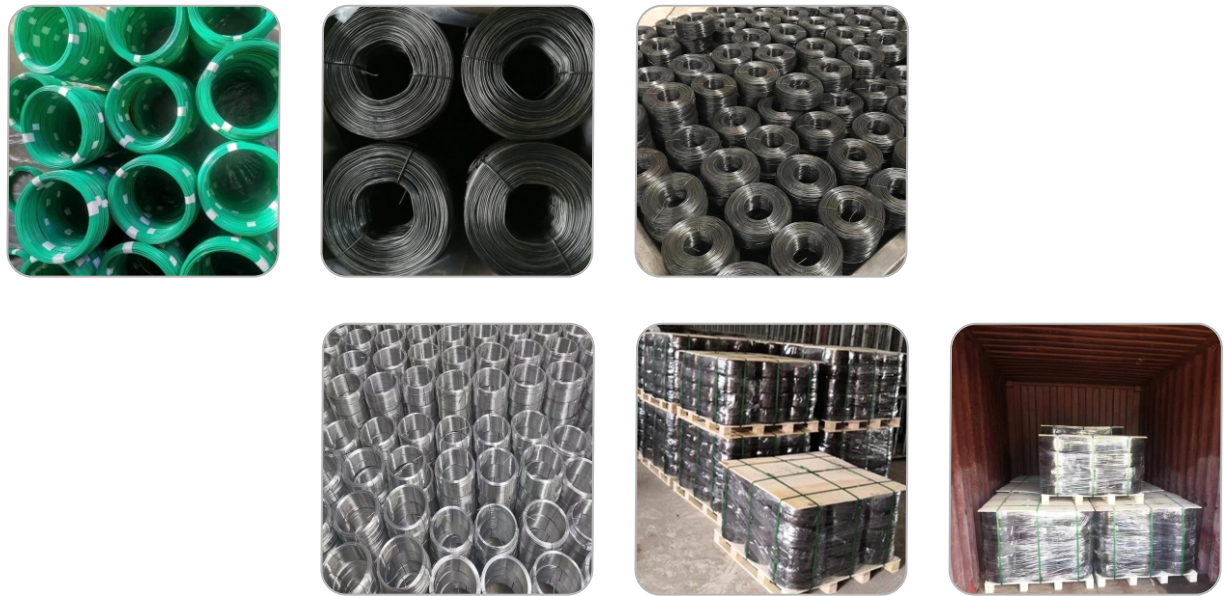

Material	Black Annealed Wire,Galvanized Wire,PVC Coated Wire
Diameter	0.5mm-4.0mm
Weight	0.5kg or can be customized
Packing	Carton box+Pallet

• PRODUCT TESTING

• PACKAGING AND SHIPPING
